HERITAGE - HISTORY - ARCHITECTURE

A magazine led by Stéphane Bern, celebrating France's architectural, natural and cultural heritage, the people behind it and its history.

Mission Patrimoine magazine offers:
• A glimpse into the dream: behind the scenes at historic and exclusive locations
• History: a look back at those who shaped our history, the great builders
• The trades: discovering the people and craftsmen who are restoring our heritage
• Encounters: the efforts of men and women to preserve our heritage

"More than ever, it seemed necessary to us to show just how vibrant French national heritage is (...) With this magazine, the Reworld Media press group wanted to give my Mission Patrimoine a concrete vision, immediately accessible to as many people as possible, perhaps also to break down that invisible barrier separating historic monuments from the public. Mission Patrimoine magazine also pays tribute to the men and women who dedicate themselves to saving, restoring and breathing new life into our heritage, whether they are owners or craftsmen. They are all driven by the same passion. And it is this very passion that brings us together through this magazine every quarter."
