UNDERSTANDING THE WORLD AROUND THEM

THE MAGAZINE FOR CURIOUS CHILDREN, AGED 7 TO 10

With Science & Vie Découvertes, children explore all kinds of topics through the lens of science.

An ideal magazine for sparking the curiosity of 7–10-year-olds, developing their imagination and helping them discover the world in a fun way.

Every month, Science & Vie Découvertes offers its readers 76 pages to devour:
science news explained for this age group, facts about animals, a major themed feature, comics... not to mention plenty of games, challenges and science tutorials !

* Octo the octopus, the new mascot, helps children learn about science
