

Karine JACQUET

Editor-in-Chief

EXPLORE THE WORLD WITHOUT LIMITS

THE FAVOURITE MAGAZINE OF 10–15-YEAR-OLDS

Discovering the world through science, making sense of current affairs, and entertaining.

With a unique blend of rigour and humour, Science & Vie Junior guides, educates and stimulates teenagers' scientific curiosity.

Curious to explore and eager to understand, teenagers will find Science & Vie Junior a stimulating, intelligent and funny read.

The articles, written by science journalists and popularisers, cover the latest scientific and technical news through a mix of news briefs, features, richly illustrated reports and comic strips.

Science & Vie Junior draws on the cultural references of this generation.
